

Entra en estos laberintos de ecuaciones, deberás resolver una a una cada una de las ecuaciones para poder encontrar la salida. Elige la respuesta correcta para avanzar y llegar a la siguiente ecuación.

a)

The maze consists of a grid of boxes connected by lines. The boxes contain equations or solutions. The 'FIN' box is at the top left. The 'Inicio' arrow is at the bottom left. Three cartoon monsters are placed in the maze: a green one at the top, a pink one in the middle, and a purple one at the bottom.

FIN	$x = -21$	$x + 6 = -15$	$x = 21$	$7x = -21$	$x = 4$	$7 + x = 11$
$x = -22$		$x = 3$	$x = -3$	$x = 8$		
$7 + x = -15$	$x = -3$	$27 = 9x$	$x = -6$	$x + 8 = 2$	$x = 18$	$\frac{2}{3}x = 12$
$x = -18$	$x = -10$		$x = 6$	$x = -7$		
$\frac{1}{3}x = -6$	$x = -2$	$-3 + x = 7$	$x = 10$	$15 = 5x$	$x = 3$	$-4 + x = -11$
$x = \frac{1}{4}$	$x = 5$	$x = -3$		$x = \frac{1}{4}$		
$2x = 8$	$x = 4$	$x + 3 = 8$	$x = -5$	$-4x = 36$	$x = -9$	$\frac{1}{2} + x = \frac{3}{4}$
